Work Health and Safety Plan for COVID-19

This plan outlines our commitment to providing a safe and healthy work environment for all employees, clients, students and visitors. Due to the latest strain strain our original Covid Safety Plan (2020) has been updated with additional precautions for staff students and clients.

What are the symptoms?

The symptoms of Coronavirus range from a mild cough to pneumonia and in severe cases can lead to death. People who have coronavirus typically experience some or all of the following symptoms:

- fever;
- flu - like symptoms such as cough, sore throat and fatigue; and
- shortness of breath.

It is important to seek immediate medical advice if the illness quickly becomes worse or if any of the following symptoms occurs:

- shortness of breath;
- chest pain;
- confusion or sudden dizziness;
- persistent vomiting.

How is it spread?

Coronavirus is spread from person-to-person through:

- Close contact with an infected person;
- Contact with droplets from an infected person's cough or sneeze; and

- Touching surfaces or objects (like doorknobs and tables) that have cough or sneeze droplets from an infected person and then touching your mouth or face.

What can be done to stop the spread of coronavirus?

Everyone should practice good hygiene to protect against infections. Good hygiene includes:

- Washing hands with soap and water;
- Using a tissue and cover your mouth when you cough or sneeze;
- Avoid touching your face
- Avoiding close contact with others, such as touching.
- Regularly disinfection hands
- Not attending college if you show any signs of a cold or flu
- Not attending the college if you have had any contact with an infected person

Rockdale	Myhealth Medical Centre Rockdale. Shop M2/ Rockdale Plaza, 1 Rockdale Plaza Dr, Rockdale NSW 2216	

Reporting and Notification of COVID19	If there is a confirmed or probable diagnosis of COVID-19 infection in a person who is part of our workplace, NSW Health will be notified by the medical professional who confirms the diagnosis and the laboratory that completed the test.
Your responsibilities in relation to COVID-19	<p>Students, staff and clients have a duty to take reasonable care for their own health and safety and the health and safety of other persons in the workplace.</p> <p>Vaccination is strongly recommended to protect yourself, and your colleagues</p>
What do you do if you test positive for COVID-19	<p>NSW Health will contact you if you have a positive test for COVID-19. You must self-isolate and follow the instructions of health authorities. You should inform the Academy of your diagnosis and you must not attend college.</p> <p>NSW Health will contact us if required, for the purpose of contact tracing and will advise on what actions are required to protect others who may have had close contact with you.</p> <p>NSW Health will undertake contact tracing. This involves identifying people who have had close contact with someone with confirmed COVID-19 infection. If you are considered a close contact, you will be directed to self-quarantine and provided with information to prevent the further spread of infection.</p> <p>People who are not close contacts do not have to go into quarantine but should be alert to the signs and symptoms of COVID-19, monitor their health and continue to practice recommended social distancing and hygiene measures.</p>

When can a worker return to work if they have COVID-19?	NSW health will advise when you can return
What should you do if you have had close contact with someone who has tested positive for COVID-19?	<p>NSW Health will undertake contact tracing. This involves identifying people who have had close contact with someone with confirmed COVID-19 infection. If you are considered a close contact, you will be directed to self-quarantine and provided with information to prevent the further spread of infection.</p> <p>People who are not close contacts do not have to go into quarantine but should be alert to the signs and symptoms of COVID-19, monitor their health and continue to practice recommended social distancing and hygiene measures.</p>
When can a worker return to work after self-quarantine?	If you have self-quarantined for 14 days without any symptoms, you can return to work. If you need a medical certificate you should see your GP. If you have tested negative for COVID-19 during this period, you must remain in quarantine for the full 14 days. You should seek medical attention immediately if you develop symptoms while in self-quarantine.
